Bruins:

This year, the St. Teresa Athletics Board has been working closely with our coordinators in tracking expenses related to athletics. With the exception of Boys and Girls Basketball, all sports ran at a fairly significant deficit this past school year. Fortunately, the Boys and Girls Basketball Tournaments, plus the return of the Bruin Bash, brought us back to close to even on the year.

In addition to the operation of the actual sports the kids play, we also are responsible for gym maintenance, including the floor, bleachers, and scoreboards. Due to functionality and age, we have recently voted to replace our scoreboards in advance of the 2026/27 sport season. While we certainly have no intention of making money on athletics, we do need to ensure we are fiscally responsible and solvent as a parish organization.

As an organization, we have a family fee of \$50 per family. This family fee has not increased since 2010 and is paid once per year. We also have a per sport fee of \$50 paid per sport played. Since we last increased our sport fee to \$50 in 2018, we have seen large increases in the costs for all athletic teams:

- League fees have increased on an average of 38%
- Referee fees have increased on average of 40%
- Equipment costs have increased on average of 45% (this is only for the balls used in sports and does not include bats, helmets, etc.)
- Field permit costs at Dunham and Carson Covedale have increased by 85%

I personally have been involved with the athletics board for 9 years and we have only had one increase in fees in that time. This year, the Athletics Board voted to continue to keep the family fee flat for the next two years, but have made the decision to increase the sport fee to \$60 for 2026/2027 and \$75 in 2027/2028.

We do not take these increases lightly, as we also all pay those fees for our kids. We are also all aware of escalating costs elsewhere. However, we feel that this will allow us to be close to breaking even on sports and give us flexibility in the event we need to incur any emergency expenses.

If you have any questions or concerns, our next meeting is May 21st, 8 PM in the Undercroft.

If you are concerned about it, reach out to me now, and I encourage you to run for one of our vacant board positions and be part of the solution.

Go Bruins!
